TSA	Treasury Single Account	
UBEC	Universal Basic Education Commission	
WANGONeT	The West African NGO Network	

## **FOREWORD**

I am delighted that Nigeria has joined the Open Government Partnership (OGP) at this time in our national life. For many years, lack of openness and corruption has meant that resources meant for development have been frittered away through the entrenchment of a culture of opacity. I am therefore glad that through the OGP process, my government has committed to intensifying the fight against corruption, sharing more information about the way federal ministers are managing public resources, increasing civil society engagement in decision making and harnessing new technologies to strengthen governance.

Our membership of the OGP reaffirms the promise of this government to make fighting corruption a cardinal part of its policy agenda. And when I say fighting corruption, I do not see it as a stand-alone effort. Rather, it is a coordinated and multi-sectoral effort consistent with what OGP is all about. So far we have made relative progress compared to what we met on ground when we were elected more than a year ago and we will not rest on our oars. Our fight against corruption is just one of the efforts we are making as a government to enthrone accountability and national prosperity. We are also pursuing complementary programs aimed at opening up our country for non-oil investments by ensuring that global standards of business practice are respected and enforced.

I am aware that the process of development of the National Action Plan involved active collaboration with civil society groups and the private sector. The co-creation effort of civil society and government in developing the NAP is something I want to specifically applaud. This government considers civil society organizations as partners in our developmental process.

The National Action Plan we are presenting today spans into four key thematic areas of *fiscal transparency, anti-corruption, access to information, and citizen engagement.* The commitments are concrete, ambitious but implementable. Some of the key deliverables are *open budgeting, open contracting, revenue transparency, and a publication of a register of beneficial ownership especially in the extractive industry among others.* They draw from the issues I committed to, on behalf of Nigeria during the Anti-Corruption Summit in London in May 2016 and aim at consolidating ongoing efforts over the next two years.

I am aware that there will be challenges in the implementation process but I have every confidence that we will undertake implementation in a manner that will produce desirable results for citizens in the shortest possible time. I must reiterate here that our commitment to reform government to be more responsive to the aspirations of citizens remains uppermost in the results we want to deliver.

I am therefore happy to present this plan to you. I want to thank everyone involved in putting it together both from government, civil society and the private sector. This unique collaboration is a clear demonstration of your shared patriotism and commitment to good governance. Let me most especially thank the OGP Secretariat in Nigeria, under the able

leadership of the Attorney General of the Federation, Abubakar Malami SAN for taking the lead to make this happen.

I want to assure the development partners and the international community who supported this process (particularly the British Department for International Development, the United States Government and the MacArthur Foundation) that I will do everything within my power to foster more inclusiveness in our policy approaches to strengthen our institutions. There is very little we can achieve as a nation unless we rebuild the trust of stakeholders in public institutions. I hope that we can achieve it through the effective implementation of the OGP National Plan.

It is my firm belief that we will gradually progress to increased transparency and accountability and eventually achieve national prosperity.

#### Muhammadu Buhari (GCFR)

President, Federal Republic of Nigeria

#### Section 1. Introduction

Nigeria has been acknowledged as one of the largest economies in Africa with a maturing political system. While these features should ordinarily attract investors, the country is currently in a recession as is evident in the negative GDP growth rates of -2.06 percent and -2.24 percent in the second and third quarters of 2016 respectively.

The declining GDP has been accompanied by a high inflation rate of 18.3 percent in October 2016 and high unemployment rate of 13.3 percent at the end June 2016. With the current weak global oil prices, the country's revenues have experienced a significant decline from the projected values. This has been aggravated by reduced production caused by the militancy in the Niger Delta region of the country, which has resulted in a fall in production from 2.2 million barrels-per-day (bpd) to about 1.4 million bpd in September 2016.

The nation's external reserves also fell to a ten-year low of about \$24.6 billion in November 2016, a 30 percent decline from the October 2014 figure, reflecting the effect of lower oil prices, falling production volumes and dwindling foreign investments. Insurgency in the Northern part of the country has claimed over 20,000 lives and properties worth billions of naira. All these have put a strain on the country's import-dependent economy and increased the incidence of poverty.

The very discouraging statistics above is partly a consequence of corruption that has been one of the biggest impediments to the country's development. His Excellency, President Muhammadu Buhari who was popularly elected to power in May 2015 promised to make the fight against corruption a cardinal part of his policy. Since his election he has left no one in doubt of the government's commitment to make governance in Nigeria more open, accountable and responsive to citizens through several important reforms and initiatives already in place.

His commitment to lead by example was brought to the fore when in May 2016, the President attended the international Anti-Corruption Summit organized by the government of the United Kingdom where he reaffirmed his commitment to strengthen anti-corruption reforms through implementing programs aimed at: **exposing corruption**; **punishing the corrupt and providing support to the victims of corruption**; **and, driving out the culture of corruption**.

Flowing from these commitments, the Federal Government sought to deepen institutional and policy reforms and this led to Nigeria joining the Open Government Partnership (OGP) in July 2016 as the 70<sup>th</sup> country. The OGP is an international multi-stakeholder initiative focused on improving transparency, accountability, citizen participation and responsiveness to citizens through technology and innovation. It brings together government and civil society champions of reforms who recognize that governments are more likely to be more effective and credible when governance is subjected to public input and oversight. At the national level, OGP introduces a domestic policy mechanism through which the government and civil society can have an ongoing dialogue. At the international level, it provides a global platform to connect, empower and support domestic reformers committed to transforming governments and societies through openness.

The OGP was formally launched in 2011 when the eight (8) founding governments (Brazil, Indonesia, Mexico, Norway, the Philippines, South Africa, the United Kingdom and the

United States) endorsed the Open Government Declaration, and announced their country action plans. The uniqueness of the OGP process lies in the implementation of the National Action Plan as it provides an organizing framework for international networking and incentives.

#### Overview of the National Action Plan

The OGP National Steering Committee (NSC) was recently constituted, with the Federal Ministry of Justice as the Coordinating Ministry and Co-chair. As the OGP process requires 50 percent civil society participation, a co-chair was also nominated by the Civil Society Organisations. The NSC will also have two incoming co-chairs, one each from Government and non-state actors in line with best practices. The NSC is currently made up of representatives of Government Ministries, Agencies, Departments (MDAs) as well as civil society organizations, organized private sector and professional associations who worked together to co-create this 30-month (Jan 2017 - June 2019) National Action Plan (NAP). The NAP aims to deepen and mainstream transparency mechanisms and citizens' engagement in the management of public resources across all sectors.

Through a consultative process between government and civil society, the NSC agreed to consolidate existing and new reforms within four thematic areas in this NAP. The thematic areas are: (1) promoting fiscal transparency; (2) access to information; (3) anti-corruption and asset disclosure; and, (4) citizen engagement and empowerment.

The National Action Plan seeks to promote fiscal transparency through more citizen participation in the budget process, implementation of open contracting in the public sector, enhancing disclosure in the extractive industries, improving the efficiency and effectiveness of the tax system and improving the ease of doing business in Nigeria.

Similarly, it will ensure that corruption is rooted out through the establishment of a public beneficial ownership register, the development of a platform for sharing information between government MDAs to detect and prevent corrupt practices, the strengthening of Nigeria's asset recovery legislation and taking appropriate actions to co-ordinate anti-corruption activities.

Under the citizen's engagement thematic area, the NAP will lead to the development of a permanent dialogue mechanism between citizens and government; review of legislation around transparency and accountability issues; and the adoption of a technology-based citizens' feedback on projects and programs. The last two commitments will improve access to information by increasing compliance with the Freedom of Information Act.

Beyond the commitments, the NAP also took into consideration crosscutting issues that will empower citizens to engage with the government and ensure proper dissemination and management of information. The crosscutting issues are: (i) Technology and Innovation; (ii) Monitoring and Evaluation; and (iii) Communication Strategy for the NAP. To ensure effective deployment of these tools across all the thematic areas, three working groups have been set up to develop implementation strategies and to articulate action plans (set out in Section 6), to support the work of these groups.

#### Abubakar Malami, SAN,

Honourable Attorney General of the Federation and Minister of Justice Co-chair, OGP Nigeria

## **Table 1: Summary of National Action Plan Commitments by Thematic** Areas

Fis	cal Transparency					
1	Ensure more effective citizens' participation across the entire budget cycle.					
2	Full implementation of Open Contracting and adoption of Open Contracting Data Standards in the public sector.					
3	Work together with all stakeholders to enhance transparency in the extractive sector through a concrete set of disclosures related to payments by companies and receipts by governments on all transactions across the sector's value chain.					
4	Adopt common reporting standards and the Addis Tax initiative aimed at improving the fairness, transparency, efficiency and effectiveness of the tax system.					
5	Improve the ease of doing business and Nigeria's ranking on the World Bank Doing Business Index.					
Ant	i-Corruption					
6	Establish a Public register of Beneficial Owners of Companies,					
7	Establish a platform for sharing information among Law Enforcement Agencies (LEAs), Anti-					
	Corruption Agencies (ACAs), National Security Adviser (NSA) and financial sector regulators					
	to detect, prevent and disrupt corrupt practices.					
8	Strengthen Nigeria's asset recovery legislation including non-conviction based confiscation					
	powers and the introduction of unexplained wealth orders.					
9	Take appropriate actions to co-ordinate anti-corruption activities; improve integrity and transparency and accountability.					
Acc	cess to Information					
10	Improved compliance of public institutions with the Freedom of Information Act in respect of the annual reporting obligations by public institutions and level of responses to requests.					
11	Improved compliance of public institutions with the Freedom of Information Act (FOIA) with respect to the Proactive disclosure provisions and stipulating mandatory publication requirements.					
Citi	tizen Engagement					
12	Develop a Permanent Dialogue Mechanism on transparency, accountability and good					
	governance between citizens and government to facilitate a culture of openness.					
13	Government-civil society to jointly review existing legislations on transparency and					
	accountability issues and make recommendations to the National Assembly.					
14	Adopt a technology-based citizens' feedback on projects and programs across transparency					
	and accountability.					

#### Section 2. Progress in Open Government Initiatives

Nigeria is already implementing several open government and anti-corruption reforms. These reforms cut across several sectors of governance. Consequently, the OGP initiative presents a platform for increased global participation, peer learning and continuous self-assessment. The country has also fully embraced modern technology as is evident in various components of the reform initiatives:

#### 2.1 Fiscal Transparency

Financial Management Systems: Implementation of the Government Integrated Financial Management Information System (GIFMIS) and the Integrated Payroll and Personnel Information System (IPPIS) has brought greater transparency to public financial management processes. The Federal Ministry of Finance, Office of the Accountant General and Budget Office regularly publish allocations of federation revenues to all tiers of government, and widely disseminate information on budget allocation and execution. Similarly, IPPIS has created a centralized database system for the Public Service with a single, accurate source of employee information.

In the same vein, the full implementation of the *Treasury Single Account (TSA)* has enabled the government to better monitor the financial activities of over 900 MDAs from a single platform, reduced the amount the government loses in interest rates on borrowing from commercial banks, eliminated the process of cash backing MDAs' accounts with commercial banks, improved the reconciliation process for MDA accounts and saved the government several billions of naira which would otherwise have been lost through corrupt practices.

**Bank Verification Number (BVN):** The implementation of the BVN initiative has created a centralized biometric identification system for the financial system. It has reduced fraudulent practices by dubious individuals and restored confidence in our banking industry, given that it makes it possible to follow the trail of money.

**Public Procurement Act:** The Bureau for Public Procurement (BPP) is working to implement and improve transparent and competitive procurement process in line with global open contracting principles. It is the objective of this government to pursue the automation of public procurement processes in all government agencies before 2019. Already the Universal Basic Education Commission (UBEC) has adopted the open contracting standards in its operations and is one of the first agencies of government to do so.

## 2.2 Government Integrity

**Asset Declaration:** The Code of Conduct Bureau is now able to implement its mandate of ensuring that public officers declare their assets promptly and that such assets are verified and recorded in accordance with the law.

#### 2.3 Access to Information

Freedom of Information Act (FOI): The enactment of the FOI Act in 2011 has made public records and information more freely available and accessible to Nigerians. Several government agencies have set up compliance structures that now enable them to respond to requests for information within the ambit of the law. The Bureau of Public Service Reform (BPSR) has adopted a unique electronic FOI platform on its website that gives real-time information to citizens and encourages voluntary disclosure.

## 2.4 Extractive Resources Transparency

**Beneficial Ownership Register:** The Nigerian Extractive Industries Transparency Initiative (NEITI) is developing a register of beneficial owners of all companies operating in the Nigerian extractive industry and would soon make it public in line with global standards.

The Corporate Affairs Commission is reviewing its laws to make it possible to disclose beneficial owners and would soon create a public register of beneficial owners of all public companies.

The Money Laundering Act 2007 is currently being reviewed to better define who a beneficial owner of a company is.

#### 2.5 Public Participation

**Electoral Reform:** In September 2016, an Electoral Reform Committee was set up to review the electoral environment, review all the laws and experiences of the 2015 general elections and make recommendations to government. The overarching goal of this effort is to continue to improve political participation, promote free and fair elections and generally deepen the democratic culture of citizens.

#### 2.6 Open Data

**Data Access:** Most Nigerian Laws are now in electronic format. The Federal Budget prepared by the Budget Office of the Federation and other official government statistics released by the National Bureau of Statistics (NBS) are also available online. Yet, the need to ensure consistency in the availability and application of these resources remains. The goal is to ensure that data is consistent and information is regularly presented in an easy to use format - easy to find and interpret.

#### Conclusion

Enacting the right laws and having the best regulations in place will not be enough to achieve the visions of the Nigerian Government. It is hoped that through the OGP process, these laws, regulations and systems will be robustly implemented across MDAs in a concerted effort supported by the NSC. The full implementation of the NAP over 30 months (January 2017 - June 2019) will improve on the existing initiatives of the Nigerian government, by strengthening ongoing reform and empowering public servants and citizens.

## Section 3. Methodology

In May 2016 President Buhari announced Nigeria's commitment to Global Open Government Partnership Principles and directed the Honorable Attorney General of the Federation and Minister of Justice to implement the commitments made in London. Subsequently, in June, 2016, Nigeria sent a Letter of Intention to Join the Open Government Partnership (OGP). In July 2016, OGP wrote to the Government of Nigeria to convey the International Steering Committee's acceptance of Nigeria as a member. It further requested that Nigeria sets up a National OGP Steering Committee made up of civil society, organized private sector and selected government agencies and to commence the development of a National Action Plan.

The Federal Ministry of Justice under the leadership of the Honorable Attorney General of the Federation and Minister of Justice (HAGF), organized a stakeholder session on OGP to identify members of the steering committee and to discuss the implementation framework of the OGP Principles in July 2016. At this session, the CSOs also self-selected their members to represent them on the steering committee.

# 3.1 Consultations with Government and Non-State Actors on the Draft OGP National Action Plan

The National Action Plan (NAP) was developed through dialogue in a manner consistent with the OGP Guidelines on Country Consultation and commitments<sup>1</sup>. Below are the consultations undertaken the Nigeria OGP Secretariat to ensure an inclusive approach:

- In October 2016, the Nigeria OGP Secretariat prepared and administered questionnaires to key MDAs requesting information on mandates, challenges and ongoing reforms in areas relevant to the OGP thematic commitments. Responses were received and incorporated into the relevant sections of the Commitment template presented in Section 4 of this report.
- On 23<sup>rd</sup> October 2016, the Open Alliance a Civil Society OGP Coalition organized a
  civil society/private sector consultative workshop on the development of the OGP
  National Action Plan. The objective was to set the civil society agenda for the OGP
  retreat and agree on an outline for OGP National Action Plan. At the workshop, a
  draft OGP National Action Plan prepared by civil society was debated. It was also
  agreed, that the draft would be used to enrich the preparation of the Nigeria OGP
  National Action Plan.
- The Federal Ministry of Justice organised the first OGP National Retreat held in Kaduna, Nigeria from 24<sup>th</sup> -26<sup>th</sup> October 2016. Members of OGP Nigeria Steering Committee, development partners, and key representatives of the OGP International Secretariat including the Chief Executive Officer, Mr. Pradhan Sanjay, attended the retreat. It provided the opportunity for the OGP Steering Committee to agree on a draft National Action Plan.

<sup>&</sup>lt;sup>1</sup>http://www.opengovpartnership.org/sites/default/files/attachments/OGP\_consultation%20FINAL%20(1).pdf and http://www.opengovpartnership.org/how-it-works/requirements.

- The Commitments were considered under four thematic areas: Fiscal Transparency, Anti-corruption, Access to Information, and Citizen's Engagement. A summary of the Commitments under the thematic areas is contained in Section One above.
- On 7<sup>th</sup> November 2016, the OGP Nigeria Secretariat shared the revised draft National Action Plan on the Federal Ministry of Justice's website<sup>2</sup>. It also distributed the draft NAP to all government Ministries, Departments and Agencies as well as the OGP International Secretariat for review and feedback.
- A half-day validation workshop was held on 8<sup>th</sup> November 2016, for senior level officials from members of the National Steering Committee. Presentations were made based on the four thematic areas and crosscutting issues, highlighting the logic and impact of the action plan, key performance indicators, and implementing agencies for each Commitment. The workshop provided a good opportunity for strengthening and broadening ownership of the OGP National Action Plan. The workshop ended with participants undertaking a participatory risk analysis of the National Action Plan involving the identification, probability, impact assessment and possible mitigation strategies of potential risks.
- CSOs also disseminated the draft NAP via television and radio interviews as well as their tweeter handles and websites.<sup>3</sup>
- Upon completion, the NAP will be presented at the OGP 4<sup>th</sup> Global Summit on 7<sup>th</sup> December 2016. If approved, the implementation of the NAP will begin in January 2017. It is expected that the NSC in consultation with the OGP Nigeria Secretariat will develop a detailed action plan outlining implementation steps under each of the 14 NAP commitments. During the implementation period, the performance of the government in the implementation of the commitments will be assessed based on the NAP Monitoring and Evaluation strategy and the OGP International Review Mechanism (IRM).

## Section 4. Commitments

# 4.1 Fiscal Transparency

Thematic Area:	Fiscal Transparency			
Commitment 1:	To ensure more effective citizens' participation across the entire budget cycle.			
Start and end date:	January 2017 to June 2019			
Lead MDA:	Federal Ministry of Budget and National Planning			
Responsible Persons:	Udoma Udo Udoma and Mrs Zainab Ahmed			
Designation:	Honourable Minister/Minister of State			
Email and Phone:				
Other Actors Involved in implementation:	Federal Ministry of Finance, Federal Ministry of Information, Budget Office of the Federation, Office of the Accountant-General of the, Federation, Office of the Auditor-General of the Federation, Fiscal Responsibility Commission, National Assembly, Central Bank of Nigeria, National Orientation Agency  Public and Private Development Centre, BudglT, Centre for Social Justice, Civil Society Legislative Advocacy Centre, Open Alliance, Nigerian Union of Journalists, Civil Resource Development and Documentation Centre, Citizens Wealth Platform, Manufacturers Association of Nigeria, Christian Aid, Action Aid, One Campaign, The West African NGO Network, Professional Women Accountants of Nigeria, Association of National Accountants of Nigeria, Oxfam International, Nigerian Economic Summit Group, Institute of Chartered Accountants of Nigeria, Nigeria, Nigeria Association of Chambers of Commerce, Industry, Mines & Agriculture			
General problem/challenge	There is inadequate citizens' engagement and participation in the budget preparation, approval, implementation and			
addressed by the	monitoring process. This results in citizens not having information and thus not being able to relate with the projects in the			
commitment:	budget and ultimately weakens accountability for resource allocations.			
Main Objective:	To ensure that budget planning, approval, implementation, monitoring and reporting meet the needs of citizens and that citizens have open access to budget information in a format that is both human and machine readable.			
Brief description of commitment:	This commitment will ensure that citizens participate and make inputs into the budget process starting with the pre-budget statement, executive budget proposal, budget debate through public hearings in the legislature, implementation, monitoring and reporting of the budget. Budget information should also be made accessible to all.			
Specific OGP challenge addressed by commitment:	More robust citizens' participation in the budget cycle will result in more effective management of public resources and improved public services and contribute to learning for improved budget performance.			

		By mal	king budget information available and accessible to all citizens in a timely ma	nner and usable for	rmat, this commitment			
Rationale for commitment:		improves accountability on the part of Government, provides openness and transparency in the budget process and ensures						
		that cit	tizens are engaged throughout the budget cycle.					
Expected		i.	Improved management of public resources to provide essential services.					
•	tcome/impact:	ii. Increased citizens' participation in budget processes.						
		iii.	Improved governance, transparency and accountability.					
		i.	Changes in the level of citizens' satisfaction.					
		ii.	Number of public consultations in the budget process.					
		iii.	Timely and publicly available audit reports.		1.5			
		iv.	Timely publication of the quarterly budget implementation reports in accord		i Responsibility Act.			
Per	formance Indicators:	V.	Number of public hearings organized by the National Assembly on budget a	•

# 4.2 Anti-Corruption

Thematic Area:	Anti-Corruption Anti-Corruption		
Commitment 6:	To establish a Public Central Register of Beneficial Owners of companies		
Start and end date:	January, 2017-December, 2019		
Lead MDA:	Corporate Affairs Commission (CAC)		
Responsible Person:	Bello Mahmud		
Designation:	Registrar-General / CEO		
Email and Phone:			
Other Actors Involved in implementation:	Federal Ministry of Petroleum Resources, Federal Ministry of Mines and Steel Development, Federal Ministry of Foreign Affairs, Federal Ministry of Justice, Office of the Accountant-General of the Federation, Office of the Auditor-General of the Federation, Nigerian National Petroleum Corporation, Independent Corrupt Practices and other Related Offences Commission, Economic and Financial Crimes Commission, Code of Conduct Bureau, Federal Inland Revenue Service, Central Bank of Nigeria, Securities and Exchange Commission, National Information Technology Development Agency, Nigeria Extractive Industry Transparency Initiative  Public What You Pay, African Centre for Leadership, Strategy & Development, Digital Forensics, African Network for Economic and Environmental Justice, The West African NGO Network, Civil Society Legislative Advocacy Centre, NACCIMA, Connecting Lens Initiative, Society for Forensic Accounting and Fraud Prevention, BudglT, Public and Private Development Centre, Professional Women Accountants of Nigeria, Micro, Small, Medium Enterprises Advocacy and Support Initiative, Association of National Accountants of Nigeria		
General problem/challenge addressed by the commitment:	Anonymous companies constitute potential and real dangers to the economy and security of the countries where they operate. These companies deny the countries of valuable revenue through tax avoidance, mask links to corruption, money laundering, drug trafficking and terrorism financing. People use proxies and fronts to register companies and the legal owners are usually not those who control and benefit from the companies.		
Main Objective:	To put in place a system that enables openness, transparency and full disclosure of beneficial ownership information.		
Brief description of commitment:	Nigeria is committing to establishing a register that will make it possible to identify the natural persons who directly or indirectly own, control or enjoy the benefits of the corporate entity.		
Specific OGP challenge addressed by commitment:	Most companies operating in Nigeria do not disclose beneficial owners, and names of owners are shrouded in secrecy. The Companies and Allied Matters Act 1990 (as amended) is still limited in providing for a public register of beneficial owners.		
Rationale for commitment:	If beneficial owners were identified, there would be the possibility of tracing money linked to tax evasion, corruption, money laundering, drug trafficking and terrorism financing.		
Expected Outcome/impact:	Increased tax revenue from corporate entities and reduction of the possibility of hiding proceeds of corruption.		

Performance Indicators:		<ul> <li>Number of companies registered in the beneficial ownership register.</li> <li>Level of Accessibility to the public register of beneficial owners located in the CAC.</li> <li>Number of companies sanctioned for failure to disclose beneficial owners.</li> </ul>

	CSOs, Private sector, etc.	Public What You Pay, African Centre for Leadership, Strategy & Developme for Economic and Environmental Justice, The West African NGO Network, Bureau de Change Operators of Nigeria					
Main Objective:	The main object	The main objective is to set up a platform for information sharing, co-ordination and synergy among anti-corruption and security agencies to detect, prevent corruption and prevent fraudulent companies from doing business with the Nigerian government.					
Brief description of commitment:	security agencies and the other an accurate database of convicted companies and persons in Nigeria as required by t						
Specific OGP challenge addressed by commitment:	The security situation and corruption trends across the world are changing rapidly with increasing complexity, new techniques and trends requiring inter-agency co-operation. Indeed, security and anti-corruption experts and practitioners agree that interagency cooperation is necessary to achieve security and prevent safe havens in today's world. Unfortunately, there are many challenges militating against inter-agency cooperation among security and anti-corruption agencies across the world, especially on information sharing. In addition, there is no register of companies and persons who have been convicted in the past and there is the possibility that they will continue to do business with government. Such a list will not only prevent convicted corrupt persons and companies from doing business with government but will serve as a deterrent to others.						
Rationale for commitment:	This commitment will aid use of technology and innovation to fight corruption; The platforms will enable sharing of information to prevent fraudulent entities from doing business with public institutions.						
Expected Outcome/impact:		esponse to detect, prevent and disrupt corruption. Prevention of blacklisted a siness in Nigeria.	and convicted com	panies and persons			
Performance Indicators	<ul> <li>Existence of a functional platform for information sharing.</li> <li>Number of companies in the list of convicted companies and blacklisted from doing business in Nigeria.</li> <li>Number of convicted persons who are in the database and blacklisted from holding public office.</li> <li>A functional database that collates information on crime trends and statistics as required by the Administration of Criminal Justice Act.</li> </ul>

## 4.3 Access to Information

Thematic Area:	Access to Information		
Commitment 10:	Improved compliance of public institutions with the Freedom of Information Act (FOIA) in respect to the annual reporting obligations by public institutions and level of responses to requests.		
Start and end date:		December 2018	
Lead MDA:	Federal Ministr		
Responsible Person:	Abubakar Mala	•	
Designation:	Honourable At	torney General of the Federation and Minister of Justice	
Email and Phone:		,	
Other Actors Involved in implementation:  General problem/challenge addressed by the commitment:	Federal Ministry of Information, Federal Ministry of Communications Technology, National Information Technology Development Agency, National Orientation Agency, Nigerian Television Authority, Federal Radio Corporation of Nigeria, News Agency of Nigeria, National Universities Commission, National Board for Technical Education, National Judicial Council, National Assembly, Freedom of Information Coalition, Nigerian Bar Association, Nigerian Union of Journalists, Ethics and Compliance Institute, Academia, Open Judiciary Initiative, Private Media Outlets, Paradigm Leadership Support Initiative, Media Rights Agenda  1. Low awareness, skills and knowledge of the FOIA provisions and processes by citizens and public/civil servants. 2. Lack of designated officer responsible for Freedom of Information in most public Institutions. 3. Lack of sanctions against public institutions and FOI responsible officers who do not respond to FOI requests or/ar report to FMoJ annually.  4. Lack of Infrastructure to support digital collection and management of information, to facilitate timely retrieval		
Main Objective:	information requested for.  The main objective of this commitment is to promote and actualize the right of citizens to request and receive information about how they are governed and how their country's resources are utilized.		
Brief description of commitment:	This commitment seeks to enhance compliance with the FOIA provision requiring all public institutions to submit a report to the Federal Ministry of Justice on FOI requests received and responded to in any given year, by February of the following year.		
Specific OGP challenge addressed by commitment:  Rationale for	Public integrity, Increased transparency and public participation.  There is currently low compliance regarding responses to FOI requests and annual reporting obligations of public institutions of		
commitment:	these requests and their status, and this situation affects public trust in the government which ultimately promotes corruption as		

		information is hidden from public view and interrogation.					
	Expected This will lead to citizens having greater access to information and subsequently reduce waste of public resources and corruption practices.						
	rformance Indicators:	<ul> <li>Reporting: Increase in number of reports submitted by mid-term (2017) and achieve institutions of their annual FOIA reports to FMOJ by 2018.</li> <li>Published contacts of FOI officers or units across public Institutions.</li> <li>Responsiveness: At least 50% of all FOI requests are responded to by February 2018.</li> <li>FOI cases are heard and determined within 6 months.</li> <li>Increase in the number of requests submitted by citizens.</li> </ul>		nissions by public			
Sp	ecific Activities/Milesto	ones	Start Date	End Date			
1	Awareness and sensitization campaigns for all staff of public institutions and continuous sensitization of citizens on the provisions of the FOIA.  Training of the key staff involved in the implementation of FOI on the requirements of the law and how to create						
2	,	d implement a system for handling requests.  January 2017  December 2017					
3	Designation of a Freedom of Information (FOI) officer/unit in each MDA and publication of their contact details. January2017 March 2017						
4	Integrate the FOI role into the individual or group performance review of the FOI responsible individual and/or unit.  January 2017 March 2017						
5	Punitive administrative measures to be adopted and applied against public institutions and officials adjudged to be undermining the effectiveness of the Act or breaching its provisions.  January 2017  June2017						
6	Each MDA should deploy an E-FOI portal, similar to the BPSR Portal or any other digital platform where citizens can make FOI requests and receive responses.  January 2017 December 2018						
7	Develop and issue a practice direction to the Judiciary through the Chief Justice of Nigeria to guide the court on FOI cases.  January 2017  January 2017						
0	Adoption of technology based information systems and standards that will ensure that information is collected, collated and stored in a form that enables public officials to efficiently and effectively retrieve the required

	sector, etc.			

General problem/challenge addressed by the	<ul> <li>Inadequate citizens' access to programmes and activities of government.</li> <li>Non-inclusiveness of citizens in the governance process.</li> <li>Low knowledge of governance activities by citizens.</li> </ul>					
commitment:	<ul> <li>Apathy of citizens with respect to governance issues.</li> </ul>					
Main Objective:	To increase access of citizens, especially those in remote rural communities to government processes.					
Brief description of commitment:	This commitment seeks the introduction of technology-driven applications, portals and platform that will enhance citizen's access to government policy process for regular input and monitoring.					
Specific OGP challenge addressed by commitment:	<ul> <li>Public integrity.</li> <li>Public services.</li> <li>Effectiveness of public service delivery.</li> </ul>					
Rationale for commitment:	Increased number of people using mobile telephones in rural communities to connect with policy makers and engage in government processes.					
Expected Outcome/impact:	Increased accountability in government service delivery. Improved access to government processes.					
Performance Indicators:	<ul> <li>No of MDAs with functional ICT platform for enhancing citizens' participation</li> <li>Statistics of enquiries that citizens make on the platform</li> </ul>					
Specific Activities/Milestones		Start Date	End Date			
1 Mapping of MDAs already having the technology-based platform for transparency and accountability		January 2017	March 2017			
2 Creation of the citizens' interactive platform for government institutions		January 2018	July 2018			
Source of Funding:	Federal government budget, development partners and private sector.					

# Section 5. National Action Plan Implementation and Co-ordination Framework

#### 5.1 Context

The OGP governance framework in Nigeria seeks to model the international mechanism. The process requires a multi-stakeholder engagement and equal representation of government and non-state actors in the Steering Committees.

Against this background, Nigeria has a **forty-two member** National Steering Committee made up of twenty-one government agencies including the National Judicial Council and the National Assembly as well as twenty-one civil society organizations, private sector institutions, and professional bodies whose mandates cut across the OGP thematic areas. Some Ministries, agencies, civil society organizations, and the Nigerian Governors' Forum have been included as observers because of their relevance in the implementation of the OGP commitments. During the Stakeholders Session on OGP and the Implementation of the President's Commitment in the London Anti-Corruption Summit held in July 2016 at the Sheraton Hotel, Abuja, government ministries, agencies and civil society organizations self-selected their representatives based on the alignment of their mandates and the responsibilities they were assigned to implement in the OGP process. His Excellency, President Muhammadu Buhari, subsequently approved the members of the NSC.

It is important to state that the members of the National Steering Committee will hold their positions for two years and that the positions in the National Steering Committee will become subject to election in the second phase of Nigeria's implementation of the OGP National Action Plan in 2019. This will give other Ministries, Agencies, Departments, civil society organizations and private sector actors the opportunity to become members of the National Steering Committee.

## 5.2 National Steering Committee

The National Steering Committee (NSC) is drawn from civil society, private sector institutions and government agencies, and will meet twice a year unless where there is an urgent need to convene the NSC.

The roles of the NSC are to:

- Set high-level strategy, policies, and procedures;
- Provide targeted outreach and support to encourage members, government institutions, and non-state actors to meet their OGP commitments;
- Contribute funds and help with fund raising;
- Represent OGP and promote its accomplishments on the international stage;

- Set a strong example by upholding OGP values and principles and make ambitious commitments;
- Recruit and brief new Steering Committee members during the second phase of the National Action Plan;
- Connect the OGP Secretariat to key potential partners; and,
- Approve the Budget of the OGP Secretariat and annual work plan.

# 5.3 Co-Chairs for the OGP National Plan (Governance and Leadership Sub-Committee)

Four co-chairs will lead the NSC. It comprises the lead government co-chair and an incoming government co-chair, one co-chair and an incoming co-chair from the non-state actors. The four co-chairs and the Executive Director (of the OGP Secretariat) will also serve as the governance and leadership sub-committee of the NSC. Their responsibilities are to:

- Ensure vitality of OGP leadership by recruiting and orienting new members and new co-chairs of the National Steering Committee;
- Work with the OGP Secretariat Executive Director to plan and run Steering Committee meetings;
- Hire and Supervise the Executive Director;
- Ensure sufficient funding for the OGP to achieve strategic objectives; and,
- Provide financial, legal and ethical oversight.

## 5.4 OGP Secretariat Management Team

The OGP Secretariat will be led by the Executive Director assisted by a minimum of four Senior Advisers, namely the, (i) Civil Society Adviser, (ii) Public Sector Adviser, (iii) Communications Adviser and (iv) Subnational Engagement Adviser. There will be four support staff on finance and administration, monitoring and evaluation/independent review, technology and innovation. The Roles of the Advisers shall include:

#### 5.4.1 Adviser on Civil Society

- Build and maintain trust and credibility with civil society organizations.
- Design effective engagement strategy and work plan.
- Design and jointly implement civil society programming and activities.
- Support Civil Society Partners to constructively engage the OGP process.

 Build partnership between the private sector, businesses and the OGP Platform.

#### 5.4.2 Adviser on Public Sector

- Provide advisory support and guidance on all public sector issues as it relates to engagement of government agencies with the OGP process.
- Maintain communication with MDAs responsible for implementing specific commitments during the NAP implementation period.
- Contact MDAs responsible for implementation of specific commitments to get information on progress for inclusion in the self-assessment report.

#### 5.4.3 Adviser on Communications

- Provide necessary input and guidance to implement the communication strategy in line with management decision.
- Build partnerships between all forms of media and the OGP process.

#### **5.4.4** Adviser on Subnational Engagement

 Responsible for developing and building the relationship between the OGP process and the various states.

## 5.5 Support Staff

The Secretariat shall be made up of the Executive Director and a minimum of four support staff that will work directly with the Executive Director. They will cover crosscutting areas such as technology and innovation, monitoring and evaluation, administration and finance. The Executive Director will be at liberty to hire more support staff if the need arises and depending on availability of funds.

## 5.6 Working Groups

Working Groups will be established along the OGP working groups - four thematic areas as well as the three crosscutting issues identified in the NAP. Co-Chairs selected by each working group will lead the Working Groups. Working Groups will be made up of Representatives of Ministries, Agencies, Departments, CSOs and private sector depending on expertise. Co-chairs will be elected every by the members of the working groups. The Working Groups will also be required to develop their terms of reference and guideline with the support of the OGP Secretariat.

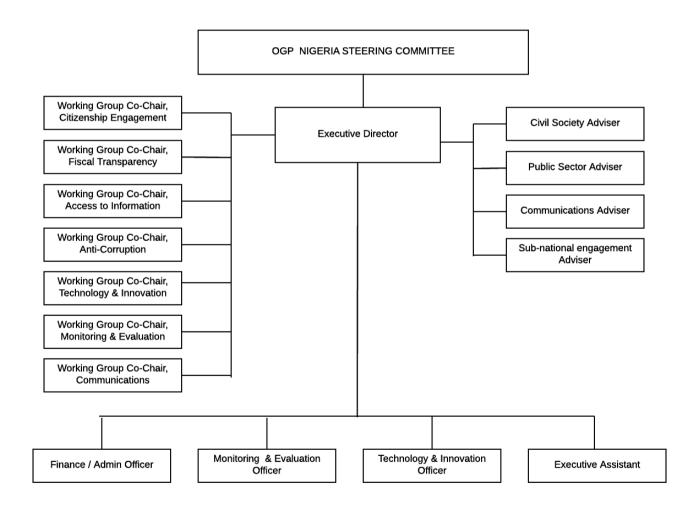

### 5.7 Funding

For the OGP process to be successful, there is need for it to be largely funded through government's annual budget, including contribution from agencies that have primary responsibility on commitment areas. Although development partners with

interest in promoting good governance and transparency in Nigeria have expressed interest to assist Nigeria by providing technical assistance to the OGP Secretariat and to sub-nationals where they have ongoing programs, this support would only be minimal.

It is also expected that States signing onto the OGP Commitments would set aside some funds for the purpose of developing state action plans, training of its officials and for the implementation of the OGP state plans.

### 5.8 Organogram of the OGP Process in Nigeria

#### Section 6. Crosscutting Areas

To ensure effective implementation of Nigeria's OGP commitments, the NAP includes three crosscutting areas of work. These are: (1) Technology & Innovation; (2) Monitoring & Evaluation; and (3) NAP Communication Strategy. The NSC agreed that achieving all commitments and objectives under the NAP will require the effective use of these three tools and has established three specific working groups tasked with the responsibility of integrating these tools into the commitments under the thematic areas and work closely with MDAs and civil society in the use and implementation of these tools.

#### 6.1 Technology and Innovation

The use of technology to provide greater access to information and data is at the heart of an open and transparent government. The NSC recognizes that Technology & Innovation cuts across all four OGP thematic areas and that appropriate solutions and infrastructure are required to deliver on each of the commitments. Therefore, a specific Technology & Innovation Working Group has been established to:

- Identify existing government IT solutions and infrastructure that are available for the implementation of OGP commitments.
- Establish what their current status is and what gaps exist.
- Recommend how those gaps can be filled through improvements in existing systems and infrastructure or the use of new and innovative tools that are realistic given the present economic realities.

In addition, Nigeria will commit to establishing a Central Open Government Information Platform that will serve as the OGP Nigeria portal/website, to make information sharing with the citizens and civil society easier and more efficient. This public facing platform will be real-time, sharing information with Nigerians about the progress on implementation of the OGP NAP commitments and other relevant governance information.

The National Information Technology Development Agency (NITDA) has a mandate which includes improving access to public information, imbibing transparency into government processes using IT and ensuring that IT resources are readily available to promote efficient national development. This mandate aligns directly with the OGP principals and objectives. In line with that, NITDA and the Technology Working Group will:

- Conduct a prioritized audit of IT capacity and gaps within MDAs relevant to the OGP process.
- Address identified IT gaps in order of priority, considering limited timeline and resources.
- Provide a continuous technology support mechanism to the OGP commitments.
- Ensure that all technology implementations across relevant MDAs conform to global information technology standards to guarantee systems interoperability for effective support of OGP commitments.

 Establish the Central Open Government Information Platform and ensure that it interfaces seamlessly with the electronic platforms of MDAs relevant to the OGP NAP implementation.

#### 6.2 Communication Strategy

Recognizing that openness in and of itself is not an end to achieving transparency and accountability, the NSC has included within the NAP a strategy for the use of both existing and new platforms for citizen engagement and feedback on the four NAP thematic areas. The Communications Strategy includes methods to reach out to citizens directly through civil society, religious leaders and influencers, elected representatives, and the media. It will employ the ACADA (Assessment, Communication, Design, and Action) concept in the development and implementation of this communication strategy. Key elements of the strategy include:

- A reorientation of the psyche of public officials to their responsibility to the citizenry and stakeholders, including donors, businesses and civil society to account for the management of the common wealth, government revenue, loans and grants.
- Increasing awareness by citizens of their right to reports of stewardship by public
  officials, the right to information on demand as provided for by the Freedom of
  Information Act 2011 (FOIA), and the right to a minimum standard of service delivery
  from public institutions that possess a direct interface with the public in the provision
  of services.
- Reducing the communication gap between the government and its citizens by the identification and adoption of existing or establishment of new, credible and robust feedback mechanisms, which promote transparency and support participation in governance by the citizens and other stakeholders in the business of governance.

Through this, citizens will be better informed about the progress made towards the implementation of OGP commitments and can hold government to account. This includes understanding their rights under existing and new laws, along with the obligations of government and the private sector regarding openness and transparency.

### 6.3 Monitoring and Evaluation

Internal Monitoring & Evaluation (M&E) of the NAP implementation is important for MDAs to ensure that (i) they are on track to fulfill their obligations under each commitment; (ii) assist the NSC to oversee the implementation process and identify potential gaps and determine where support and resources are needed to be directed; and (iii) for citizens, the private sector, civil society and the media to hold government to account with respect to delivering on its OGP commitments. The NAP will use a Results Based Management (RBM) Framework, along with appropriate output and outcome Key Performance Indicators (KPIs), crafted to track achievements, results and impacts of OGP commitments. The M&E system will be presented in a simple template for ease of implementing MDAs and civil society to monitor and evaluate progress.

Each of the 14 commitments articulated in the NAP have KPIs that will guide the M&E process. Through consultation with stakeholders, the M&E framework will include acceptable results (what should be expected or seen) for each commitment area. Each of these results will be reviewed with respect to how they link to citizens' needs and there will be agreed indicators for these results. The method to capture results most effectively will be agreed upon as well as who will be responsible for this, within the MDAs.

The results framework will give a clear view of the performance status of the commitments at a glance. It will be sequentially presented, linking commitments to ambitions (outcomes/impacts) and indicators to ensure that implementation of activities (milestones) is purposeful and results oriented. The OGP focus areas of openness (Transparency, Accountability, Public Participation and Technology / Innovation) provide direction to specific commitments captured in the NAP. Therefore, this M&E strategy recognizes that the performance of each of the commitments in the NAP will be measured against the four focus areas to determine the overall level of change that has been achieved. A yearly qualitative assessment will also be conducted across the commitments to ascertain the level of openness with regard to each of the four openness areas. Prior to the qualitative assessment, a set of questions/checklist in addition to the KPIs contained in the results framework shall be prepared to ensure consistency in assessment.

### Section 7. Sub-National Engagement and Pilot State Commitments

#### 7.1 Context

Following consultations on the OGP National Action Plan in Nigeria, it has become imperative to develop a pathway to the participation of State governments in the OGP process across the country. Nigeria is a Federation, which is a union of self-governing states. It is pertinent that efforts be made to ensure that every OGP reform undertaken at the national level is reflected as much as possible among the federating units, especially the states.

Indeed, the choice of Kaduna State as the location for the convening of the first National Retreat meeting was informed by the intent expressed by the Governor for the State to join the Open Government Partnership in 2015, well before the Federal Government joined. It was also informed by the State's open budgeting process and the monitoring of projects' progress through citizen engagement using the 'phone-based platform or 'geotech' tool known as "Eyes and Ears"<sup>4</sup>.

No doubt, the development of the first National Action Plan for the implementation of OGP principles in Nigeria gives us an opportunity to think through this process and to determine how best to engage with the States, particularly those States that have expressed interest to commit to all or some of the thematic areas already adopted at the federal level. (These thematic areas are set out in Section 1 of the NAP).

#### 7.2 Benefits of Signing onto the OGP Principles

It is important to state at this point that States are not necessarily under an obligation to sign on to the OGP principles and by extension to the National Action Plan commitments. However, States are urged to sign onto the OGP principles that are focused on improving transparency, accountability and participation of citizens in order to improve the State's ability to attract foreign investment, enhance access to additional development funds and engage with citizens.

Increasingly many development partners prefer states where the support they provide will have a high chance of being utilized appropriately. By signing unto OGP principles, states demonstrate both responsiveness to citizen's demand through engagement and also their willingness to open up their systems to public scrutiny. Ultimately, such States are in a position to benefit from the development funds at this time when resources are scarce and there is urgent need to channel the revenue available to development and investment to those projects that matter most to the people such as education, health, roads, agriculture and energy.

46

<sup>&</sup>lt;sup>4</sup> For more information, visit: <a href="www.openkaduna.com.ng">www.openkaduna.com.ng</a> and <a href="http://mobp.kadgov.ng/">http://mobp.kadgov.ng/</a> and <a href="www.kadunapets.org">www.kadunapets.org</a>.

#### 7.3 How can States join?

The States can join by taking the following steps:

- a) Review and understand the National Action Plan<sup>5</sup>.
- b) Write to the Co-Chairs and OGP Nigeria Secretariat in the Federal Ministry of Justice to express intent to join the OGP in Nigeria<sup>6</sup>.
- c) Once the letter of intent is received, the Co-Chair will respond and set out the procedure for joining.

Once a response is received from the OGP Secretariat, the next steps for formal acceptance into the OGP Family will include some or all of the following steps:

- a) In collaboration with the OGP Secretariat in Nigeria, the State will be expected to organize a workshop to bring together government institutions and civil society organizations and private sector institutions to discuss OGP principles to determine the persons who should be members of the (i) State Steering Committee, and (ii) the Commitments that the State should commit to.
- b) States will send the list of the State Steering Committee and the commitments from the state to the Co-Chair. Such commitments will be expected to reflect issues of transparency, accountability and participation of citizens in line with the priorities and context among states.
- c) States will now inform the Secretariat if it requires assistance to develop the State Action Plans around the commitments.
- d) States would be expected to formally send a request to the Secretariat for training of the State Steering Committee on the development and implementation of the State Action Plan.

## 7.4 Duration of State Action Plans and Monitoring and Reporting Mechanisms

Since the National Action Plan is for two years and would be evaluated by the OGP International Secretariat, it is also expected that the OGP Nigeria Secretariat would evaluate the State Action Plan. Consequently, the State Action Plan would be for a period of two years and would be evaluated every six months by a team of experts and the National Secretariat. The State Steering Committee will be required to submit reports on progress made every quarter.

<sup>&</sup>lt;sup>5</sup> This can be downloaded from (<a href="http://www.justice.gov.ng/index.php/78-featured/106-open-government-partnership">http://www.justice.gov.ng/index.php/78-featured/106-open-government-partnership</a>)

<sup>&</sup>lt;sup>6</sup> A sample letter of intent is set out below and can be downloaded also from the OGP link in <a href="http://www.justice.gov.ng/index.php/78-featured/106-open-government-partnership">http://www.justice.gov.ng/index.php/78-featured/106-open-government-partnership</a>.

The assessment reports would be used to determine if the State would be eligible to be included in the second phase of the National OGP Action Planning process for the purpose of international evaluation.

#### Section 8. Conclusion

The partnership that the civil society and government provided ensured that the content of this plan was co-created from the beginning. Such a robust participatory process inspired a communication strategy that will enable the citizens take complete ownership of this plan and what it intends to achieve. It is expected that civil society will monitor government and insist that implementation be consistent with all aspects of the promises contained herein. In this regard, government will also hold non-state actors and citizens accountable in ensuring that implement their own part of the NAP. Government and leaders at all levels of governance are expected to remain open to receive constructive feedback and suggestions on ways to improve the implementation of the NAP and maximize impact.

As we proceed on this positive steps in our nation's journey from transparency to accountability and ultimately, national prosperity, the Nigeria OGP Secretariat and the National Steering Committee stands ready to work hand in hand with all stakeholders to ensure that a more open and transparent government delivers the equitable and sustainable development that our citizens yearn for.
